Job Title: Software Engineer, Golang and AWS

Location: Bengaluru, India

Summary:

We are looking for a talented and experienced software engineer to join our team and help us build scalable and reliable software systems using Golang and AWS. The ideal candidate will have a strong understanding of Golang, AWS, and cloud computing concepts. They will also be able to work independently and as part of a team, and be able to meet deadlines and deliver high-quality work.

Responsibilities:

- Design, develop, and maintain Golang applications and services on AWS
- Work with other engineers to design and implement cloud-based solutions
- Troubleshoot and debug Golang applications
- Gather requirements and define specifications
- Write unit and integration tests
- Deploy and maintain Golang applications in production
- Stay up-to-date on the latest Golang and AWS technologies

Qualifications:

- Strong understanding of cloud computing concepts
- Experience with SQL and NoSQL databases
- Experience with containers and microservices
- Excellent problem-solving and debugging skills
- Strong communication and teamwork skills
- Ability to work independently and meet deadlines

Benefits:

- Competitive salary and benefits package
- Opportunity to work on cutting-edge technologies
- Collaborative and supportive work environment
- Chance to make a real impact on the company
